NEW

mango is a fast, easy, and effective way to learn to speak a foreign language!

Mango is an online language learning system that teaches real conversation skills for practical communication. Through fun and engaging interactive lessons, Mango makes learning a new language fast, easy and incredibly effective.

Mango's unique methodology copies the way people learn when surrounded by a foreign culture – through practical conversation. Every lesson incorporates all 4 conversational components (Vocabulary, Pronunciation, Grammar and Culture), each of which is critical to your ability to communicate in a foreign language. At the same time, you'll be increasing your ability to actually USE what you learn, with a variety of critical thinking and memory exercises.

The Mango system is completely web-based and remotely accessible, so you can learn anywhere you have an internet connection – at the library, a coffee shop, or even at home in bed. Choose from 36 guided language experiences, 14 English as a second language experiences, and different levels of fluency. All you need is a library card.

Mango is built to be both effective and fun. You'll see progress with every session, and be encouraged to keep talking. In no time at all, you'll be able to navigate all sorts of everyday situations – get directions, order a meal, make new friends – the possibilities are endless!

Mango is FREE at your local library - learn more by visiting us online: carbonlibraries.org (click Library Resources, then Electronic Databases)
